STATEMENT OF PATIENT PRIVACY RIGHTS

New Federal legislation mandates that certain information regarding how physicians use and share your confidential medical record information be disclosed to you.

Our office has always regarded all medical and personal information as completely confidential. As a result, many of the new Federal mandates have not changed the way we handle your information other than to tell you how we protect it.

Our policy insures that your protected health information remains confidential.

Your signature below indicates that you have seen and been provided with a copy of our privacy policy. Our policy is available for your review in our waiting room. If you are interested in copy of this policy for your records one can be provided at the front desk.
